Meet a "machine for all missions"

What 20th-century invention can help the deaf speak, date ancient jade, sell tickets to a rock concert, design a city, forecast the weather, schedule a sophomore's classes, and catalog all of the newspapers ever published in Iowa?

The computer, of course.

But none of this happens without human direction. And that's the reason Iowa State is raising \$10 million to build the Charles W. Durham Center for Computation and Communication—so that students, faculty, staff, researchers, and off-campus correspondents and colleagues can improve their computer literacy—not simply to "crunch" more numbers, but to think, using the computer as a tool.

Here are some of the ways the proposed facility will directly benefit the university and its many missions.

Students:

- Throw away the T-square; freshman engineers now use sophisticated computer graphics to solve design problems.
- So you're pulling an all-nighter. Computer access 24 hours a day could allow you to review the instructor's lecture notes via your dormitory-based micro-computer.

Teaching:

- Design a building, space shuttle or sculpture—and look at it in three dimensions before it is modeled.
- Run a farm, analyzing market data and making management decisions via computer.

Research:

- Save lives and property by stimulating the atmosphere and using the computer to forecast severe weather.
- Help the deaf to speak through Video Voice, a computer that visualizes sound.

These are only a few specific examples of how the Durham Center will aid in instructional and research programs.

More than \$6 million in gifts and pledges has been received for the Durham Center Campaign. But nearly \$4 million in gifts and commitments is needed to bring this vital project from plans to reality.

Your participation is needed at Iowa State. Help support this "engine" that drives research, academic innovation and applications yet to be imagined.

Help make the dream a reality.

General Voice Mail Commands

You may use the following three commands throughout voice mail operation:

1. For help, press *H. This tells you where you are, gives you a list of all your options, and tells you how to perform each option.
2. To restart, press *R. This returns you to the activity menu from any point in the system.
3. To wait, press *W. This asks voice mail to wait for a short time, rather than hanging up (because it hasn't received a command from you) as it ordinarily does.

Speed and volume controls are available for your convenience in listening to voice mail. Stored messages are not changed by these commands; only the speed and volume at which you hear them are changed.

Volume increase, press 4; decrease, press 7.

Speed increase, press 9; decrease, press 8.

Logging In

1. Dial voice mail number—4-MAIL (4-6245).
2. Enter your own telephone extension followed by the #. (If you are at your own telephone, you can save time by entering just the #.)
3. Enter your password, followed by a #.

You will hear:

"To create a message, press 1. To get your messages, press 2. To change your personal greeting, press 3."

(There are two additional activities not mentioned: Press 4 to scan your outgoing mailbox; press 5 for password and list administration.)

Creating Messages

1. **Starting from the activity menu, press 1** to select Create Messages.
2. Wait for tone.
3. Speak your message.
4. Press 1 to stop recording.

Editing the Message:

After creating a message, you may listen to it and change it as often as you like before approving it. The following will assist you in editing a message:

Rewind—Press 2. This moves you back to the beginning of the message.

Playback/stop playback—Press 3. This plays the message. You can stop playback at any point by pressing 3 again or by entering another command such as record, approve, or delete.

Record/stop record—Press 1. This allows you to erase and re-record from this point or add to the end of an existing message.

Approve message—Press *#.

Delete message—Press *D.

Addressing the Message:

The system administrator has set up a "default" addressing method for you which addresses your message by extension number. The *A command allows you to choose an alternate method that addresses your message by name:

1. Press *A.
2. Enter enough letters to uniquely identify the name, then press the #. If you do not enter enough letters, voice mail offers you a choice of up to three names or asks you to enter more letters of the name, starting from where you left off.

You may also address a single message to several individuals who are part of a prearranged system list. A list might be used to send one message to all members of a committee, for example. See "Password and List Administration" for information on creating a list.

To address by list:

1. Press *L.
2. Enter the extension (or name) of the owner of the list, followed by the #. (If it is your list, enter only a #.)
3. Enter the list ID, followed by a #.

To review a list:

1. Press *1.
2. Press # to skip to next entry on list. This reviews each member on the list.

To end addressing: Press *#. If you hang up after addressing the message but before scheduling delivery, delivery is immediate.

To delete an address: Press *D. This deletes the most recently entered address.

Scheduling Delivery:

2. Enter date and month you want the message delivered, using this format: month (one or two digits), date (two digits), and the #. For example, June 25 would be: 6 2 5 #.
3. Press *# to approve the delivery time, or *D to erase it and reschedule.
4. Press Y to save a copy of the message; otherwise press N.

To create/change a personal greeting:

Skip to next header—Press #.

Listen to body of message—Press 0. This command is available only in Undelivered and File Cabinet categories of your outgoing mailbox. The other mailbox categories contain only copies of the message headers.

Delete—Press *D. This deletes the last message you heard in the Undelivered and File Cabinet sections of your outgoing mailbox. In the other outgoing categories it deletes the last header heard.

Modify message—Press 1. You can edit an Undelivered or File Cabinet message just as you would an original voice mail message. The Modify command makes available all the editing commands listed on the front page.

ISN Modem Pool Instructions

Data Calls From Off-Campus to the ISN Network Via Inbound Modems

You can place a data call to the ISN with a modem using either of these phone numbers:

294-9500 (300 baud)
294-9570 (1200 baud)

Once connected, press <RETURN> several times in quick succession until you get the **DIAL:** prompt. Then, enter the address you want to call (i.e., **CCVAX**, **EVAX**, **WYLBUR**, etc...) and press <RETURN>. You will then be connected to the dialed address and can log in as usual. When you are finished with your session, follow appropriate logout procedures. After logging out, if **DISCONNECT** does not appear, then enter <CTRL/A> <CTRL/A> to disconnect from the host. If you wish to begin a new session, enter <CTRL/A> <CTRL/A> and wait for a new **DIAL:** prompt to reappear; otherwise disconnect (hang up) your modem.

Data Calls From the ISN Network to Off-Campus Via Outbound Modems

You can call a system not on the network using outbound modems. (The off-network system must use Bell 212A-compatible modems operating at 1200 baud.) First, enter **MODEM** at the **DIAL:** prompt. When the ISN replies with **ANSWERED**, your terminal is connected to an outbound 1200 baud modem. Next, type **ATZ** to reset the modem to its "default" settings. After **OK** appears, you are ready to call out of the network.

To place a local call, type **ATDTphonenum** where **phonenum** is the number that you would call from an ON-CAMPUS phone. For example, **ATDT4????** would call ISU Extension 4-????, while **ATDT9232????** would call the off-campus number 232-???? (Question marks are used for example only. Replace them with the actual digits from the phone number you wish to dial.) The 9 prefix is needed to dial off campus just as in a voice call.

To place a long distance call, you must use an authorization code; **you will be charged long distance toll rates for any long distance data calls placed.** (For information on how to obtain an authorization code, call the Telecommunications Office at 294-8585.) Placing long distance calls is similar to placing local calls, but you must also include your authorization code. Example:
ATDT91555??????,1234567 would dial 9-1-555-????-????, and would use 1234567 as your authorization code. Note the commas; they are necessary to tell the modem to pause a few seconds between dialing the phone number and entering your authorization code.

For both local and long distance calls, the modem will respond with **CONNECT** when the called system answers. You may have to press <RETURN> a few times to get a login prompt. Log in as usual at this time. Once you have completed your session and have logged off, hang up the modem by typing your disconnect sequence (usually <CTRL/A> <CTRL/A>). This will end the phone call and disconnect you from the modem.

For further information concerning how to log into ISU computer systems connected to the ISN, please refer to the Computation Center's Users' Reference Memo **URM039** available from the Computation Center Library, 108 Computer Science.

The switchhook is the set of buttons where the handset rests when not in use (see below). When the instructions say to "press the switchhook" you should press one of the buttons momentarily and then release.

Note: Pressing the switchhook firmly once and then releasing it puts your current call on hold. Please make sure that when terminating a call, you hold the button down for several seconds, or simply hang up the phone. **A call inadvertently placed on hold may remain on hold for several hours. This is especially important to remember on long distance calls.**

c. Answer the call.
2. a. Ask first party to hold.
b. Depress switchhook momentarily.
c. Listen for recall tone.
d. Dial *4.
e. To return to first party repeat steps (a) through (d). These steps can be repeated to switch between calls.
f. After you are done talking to one caller, hang up and wait for your phone to ring. When you answer, you will be connected to the other caller.
3. If you do not wish to answer the waiting call, ignore it.

When a person calls you and you hear the call waiting tone, the person who placed the call will hear a ring that ends with a tone.

Note: * and # are found on touchtone telephones only.

Temporary Data Protection

When using your phone with a modem for data calls, it is recommended that you use this feature so the phone system doesn't allow Call Waiting or other intermittent tones to interrupt your data connection.

1. Dial 113.
2. Listen for dial tone.
3. Dial number as usual.

Data protection is on a per-call basis and will end when the call is terminated. You will need to re-enter it for every data call.

Fraudulent Billing Can Lead to Prosecution

It is illegal for a person to charge long distance calls to another person's authorization code or calling card without permission. Persons placing such calls to avoid payment for service are subject to prosecution and if convicted are subject to imprisonment and/or a fine.

Harassment by Telephone

It is a crime under both state and federal law for anyone to make obscene or harassing telephone calls. These laws have penalties of imprisonment and/or a fine.

Billing

You will be billed from the Accounts Receivable Office for your basic service and long distance calls. (Only one resident in each single unit will be billed for basic service.) The Telecommunications call detail statement will be mailed to you monthly. Please make your payment from the **Accounts Receivable** bill, and return your payment to the Treasurer's Office, 122 Beardshear. **To ensure correct application of your payment, please indicate the amount which is to be applied to your Telecommunications charges.**

To avoid loss of service, bills must be paid monthly. The initial reconnection charge (non-refundable) is \$25. Each subsequent reconnect charge will be \$50.

Note: You will be charged for unanswered long distance calls if you allow the phone to ring more than six times or if you do not hang up promptly upon hearing a busy signal.

If you lose your authorization code slip, contact the Telecommunications Office **immediately!** **You are responsible for all calls charged to your authorization code. Do not give this information to anyone else.** We strongly recommend that you memorize your code and then destroy the authorization code slip.

Country and City Codes

How to use this chart:

The bold number following the country name is the "Country Code."

Bold numbers beside cities are "City Codes."

The number to the left of the country name is the approximate time difference (TD) from Central Standard Time.

Military bases cannot be dialed directly.

*City codes not required.

**All codes in the Paris area are 1 + 8 digits.

The first of the 8 digits will begin with 3, 4, or 6.

THE NAVY HAS \$40,000 TO HELP PAY FOR YOUR EDUCATION

A Naval Reserve Officer Training Corps (NROTC) scholarship pays for tuition, fees, and books at over 60 colleges and universities across the nation, and provides a tax-free allowance of \$100 a month for up to 40 months. You may be eligible for 3½, 3, 2½, or 2 year scholarship; if qualified, you could receive over \$40,000 to help you get the kind of college education you want. The 2-year college program is a non-scholarship option which helps defray the cost of your education by paying you \$100 a month during your junior and senior years.

Competition for NROTC Scholarship is based on academic ability and demonstrated leadership potential, not on your family's financial situation. After graduation, you'll immediately move into a responsible, decision-making position as a Navy or Marine Corps Officer.

To see if you can qualify for an NROTC Scholarship, contact your Navy representative:

Before you choose a long distance service, take a close look.

You may be thinking about choosing one of the newer carriers over AT&T in order to save money.

Think again.

Since January 1987, AT&T's rates have dropped more than 15% for direct-dialed out-of-state calls. So they're lower than you probably realize. For information on specific rates, you can call us at 1 800 222-0300.

And AT&T offers clear long distance connections, operator assistance, 24-hour customer service, and immediate credit for wrong numbers. Plus, you can use AT&T to call from anywhere to anywhere, all over the United States and to over 250 countries.

You might be surprised at how good a value AT&T really is. So before you choose a long distance company, pick up the phone.

AT&T

The right choice.
